

Fat Lady of On-Line Shopping

Yummy, is all I can say. I couldn't believe my luck, when after what seemed like an eternity I found "Candies, Nuts, & More." An exquisite collection of every confection your heart desires. Finally, I could order all the sweet delights and no one is staring at the fat lady.

Let's see, I ordered 10 pounds of Wasabi Peas, 10 pounds of Chocolate Pretzels, 10 pounds of Spicy Trail Mix, 10 pounds of Bon-Bons. Tallied up to 40 pounds of delectable, sinful, indulgent delight! I must put a rush on it, no 3 day ground for me.

The following day, my boxes arrived, indulgence at its best. I am a converted on-line shopper! Won't you join me?
